

## LOGIC MODEL ASSESSMENT RUBRIC

Criteria	Exemplary	Satisfactory	Needs Improvement
a) Comprehensive-ness	<ul style="list-style-type: none"> <li>more than 3 items listed for each component</li> <li>presents a highly comprehensive picture of the program's impacts</li> </ul>	<ul style="list-style-type: none"> <li>a minimum of 3 items are listed for each component</li> <li>presents a relatively comprehensive picture of the program's impacts</li> </ul>	<ul style="list-style-type: none"> <li>less than 3 items listed for each component</li> <li>does not present a comprehensive picture of the program's impacts</li> </ul>
b) Correct Placement of Components	<ul style="list-style-type: none"> <li>all components are placed in correct columns</li> <li>client satisfaction listed as an <i>Output</i> and not <i>Outcome</i></li> <li>all <i>Outcomes</i> listed demonstrate a horizontal chronological flow from <i>Short-term</i> to <i>Long-term</i></li> <li>all <i>Outcomes</i> listed demonstrate a vertical chronological flow within each column</li> </ul>	<ul style="list-style-type: none"> <li>all components are placed in correct columns</li> <li><i>Outcomes</i> listed demonstrate a horizontal chronological flow within each column</li> </ul>	<ul style="list-style-type: none"> <li>components not placed in correct columns</li> <li><i>Outcomes</i> listed do not have a horizontal chronological flow</li> </ul>
c) Correct Presentation of Components	<ul style="list-style-type: none"> <li>each <i>Activity</i> statement is described using an action-verb</li> <li>majority of <i>Outputs</i> are numerically-based, few "deliverables" listed</li> <li>every <i>Outcome</i> listed includes a direction of change</li> </ul>	<ul style="list-style-type: none"> <li>majority of <i>Activity</i> statements are described using an action-verb</li> <li>majority of <i>Outputs</i> are numerically-based, few "deliverables" listed</li> <li>majority of <i>Outcomes</i> listed include a direction of change</li> </ul>	<ul style="list-style-type: none"> <li><i>Activities</i> not described with action-verbs</li> <li><i>Outputs</i> listed contain many "deliverables"</li> <li>majority of <i>Outcomes</i> do not include a direction of change</li> </ul>
d) Underlying Logic	<ul style="list-style-type: none"> <li><i>Outputs</i>, and <i>Outcomes</i> are linked logically to <i>Activities</i></li> </ul>	<ul style="list-style-type: none"> <li><i>Outputs</i>, and <i>Outcomes</i> are linked logically to <i>Activities</i></li> </ul>	<ul style="list-style-type: none"> <li>no logical linkage between <i>Activities</i>, <i>Outputs</i>, and <i>Outcomes</i> identified</li> </ul>
e) Plausible Connections	<ul style="list-style-type: none"> <li>connections are highly plausible, i.e. the <i>Outcomes</i> listed could realistically arise from the <i>Inputs</i> and <i>Activities</i> identified</li> <li>all <i>Intermediate Outcomes</i> listed demonstrate a realistic link to the <i>Long-term Outcomes</i> identified</li> </ul>	<ul style="list-style-type: none"> <li>connections are relatively plausible, i.e. the <i>Outcomes</i> listed could realistically arise from the <i>Inputs</i> and <i>Activities</i> identified</li> <li>most <i>Intermediate Outcomes</i> listed demonstrate a realistic link to the <i>Long-term Outcomes</i> identified</li> </ul>	<ul style="list-style-type: none"> <li><i>Long-term Outcomes</i> could not plausibly arise from the <i>Short</i> and <i>Intermediate-term Outcomes</i> identified</li> </ul>
f) Readability	<ul style="list-style-type: none"> <li>understandable to the lay reader, no jargon included</li> </ul>	<ul style="list-style-type: none"> <li>understandable to the lay reader, minimal jargon included</li> </ul>	<ul style="list-style-type: none"> <li>many instances of jargon used, would not be readily understood by a lay reader</li> </ul>
g) Brevity	<ul style="list-style-type: none"> <li>fits to one page</li> </ul>	<ul style="list-style-type: none"> <li>fits to one page</li> </ul>	<ul style="list-style-type: none"> <li>extends to two or more pages</li> </ul>
